

CUSTOM BOTTLE DESIGN FOR DISTILLERS

CUSTOM BOTTLE DESIGN FOR DISTILLERS

DESIGNING DISTINCTION

In a crowded spirits market, packaging does the talking before the liquid ever gets poured. Your bottle is more than a vessel...

It's your first impression, your brand signal, and often the reason a customer reaches for your brand instead of the bottle next to it on the shelf.

At UniquePak, we help distillers create distinctive custom bottles without the usual complexity, cost, or delays. From concept to production, we make custom packaging achievable.

THE DISTILLER'S REALITY

Shelves are crowded.
Visual impact matters.

Consumers expect
premium and increasingly
sustainable solutions.

Packaging must reflect your
brand story and values.

Traditional custom
packaging is slow,
expensive, and rigid.

THE UNIQUEPAK DIFFERENCE

Behind every bottle is a dedicated quality team, ensuring consistency, performance, and reliability at every stage of production.

We combine global manufacturing expertise with local support to deliver custom glass bottles that balance creativity, speed, and commercial reality.

Fast design
turnaround

Australian
distillers

FROM IDEA TO BOTTLE

A CLEAR, PROVEN PROCESS.

CONCEPT TO RENDER

14 DAYS

Show your ideas and brand essence. We deliver technical drawings and photos that render within days.

SAMPLES

45 DAYS

Approve final bottles before moving to production. No guesswork!

PRODUCTION

16-18 WEEKS

From model build to finished bottles, keep the process efficient and predictable.

DECORATION AND FINISH OPTIONS

LABELLING

SUSTAINABILITY, WITHOUT THE SPIN

We support sustainable materials and design approaches that align with modern consumer expectations and brand responsibility, without compromising performance or aesthetics.

LET'S MAKE YOUR BOTTLE UNMISTAKABLE

World Whisky Awards 2026 -
Best Design and Best Range Design.

A CUSTOM BOTTLE, DONE RIGHT.

We help Australian distillers create custom glass bottles that are distinctive, scalable, and commercially practical. From concept to production, we support custom bottle and closure development, including moves to more efficient lightweight designs, without compromising quality or shelf impact.

Distinctive design that brings your brand to life.

Lightweight options for more efficient logistics and lower environmental impact.

Custom closure development to complete your packaging solution.
